

## Jambo!

As some of you may know, I have just returned from a magnificent experience in Kenya. I was blessed to travel with the Amani Children's Foundation, which is providing a bridge for awareness and help between our communities and the heroic work being done in Africa. Throughout Africa, the extended family is collapsing under the strain of AIDS, poverty, and political conflict. 13 million orphans have been left behind: the largest the world has ever know.

New Life Homes, located throughout Kenya, is providing excellent care for these babies abandoned by overwhelmed, sick, and dying family members. Many of these babies are found in trash bins and pit latrines, where they were left to die.

Please help us raise the desperately needed resources that will sustain and grow New Life Homes' excellent care of these abandoned babies.

Visit [www.amanimeanspeace.org](http://www.amanimeanspeace.org) where you can donate online. Also, we are selling the Amani CD's featured on the site which the proceeds go to support their mission.

Thanks to everyone that gave items for me to take on my trip, as well as money for New Life Homes through Amani Children's Foundation. You should know that your love was felt by all the people we met.

Thanks for your continued love, financial support, and prayers.

**Asante sana,**

*Rebecca*
